WORK EXPERIENCE

Director of Software Engineering
Inventive Group, Inc.

01/2018 – Present   *Austin, TX*
An expert led consulting company and engineering bootcamp.

Achievements/Tasks
- Leading several high-performance development teams on a variety of platforms, technologies, and timelines
- Coordinating and conducting development ceremonies, coaching/mentoring, goal setting, project priorities, and technology decisions
- Participating in business analysis, sales, project assessment, forecasting, and discovery of new business opportunities

Manager, Software Development BI & Analytics
TriNet Group, Inc.

04/2017 – 12/2017   *Austin, TX*
TriNet is a professional employer organization (PEO) that provides small and midsize businesses with full-service HR solutions.

Achievements/Tasks
- Built, organized and lead two development teams to build the next generation TriNet reporting solutions
- Mentored developers and helped them set realistic goals for a pathway to success
- Frequently presented updates of the project's status to the senior management and the executive teams
- Collaborated with the product owner, PMO, QA and release teams to ensure smooth progression through the SDLC within the enterprise
- Architected a high-performance, scalable, web-based reporting application using Angular, Java microservices, Apache, Redis, MongoDB, RabbitMQ and Docker

Application Architect
General Motors

04/2015 – 04/2017   *Austin, TX*
Application architect for the global Owner Center application; a high volume, public-facing eCommerce, vehicle management and educational application.

Achievements/Tasks
- Architect and developer for the Info3 project which integrated the in-vehicle infotainment system with the Owner Center application
- Architect for the migration of the PCI compliant OnStar shopping experience into the Owner Center application
- Architected, developed and trained UI developers on an AngularJS framework/templating system to support better modularity, localization, testability and multi-tenancy

WORK EXPERIENCE

Lead Senior Software Engineer
Trade Technologies, Inc

03/2013 – 04/2015   *Austin, TX*
Provides software and services for Exporters, Forwarders and Asia-Direct Importers and Vendors.
Achievements/Tasks

- Overall development lead responsible for code standards, testing patterns, and overall software architecture
- Lead a team to architect and develop a number of feature enhancements for the platform including a business gateway + workflow engine for trade-related documents, a custom reporting solution, and overall UI/UX experience

Senior Software Dev Engineer
Dell, Inc.

03/2012 – 03/2013   *Austin, TX*
Incubator, R&D and social commerce products offered under the "Marketvine by Dell" team.
Achievements/Tasks

- Developed a host of social commerce applications utilizing a number of technologies including .NET, Ruby, Java, Node, Backbone, Knockout, and many more
- Lead a "lean canvas" exercise, conducting over 30 interviews to determine the viability of a product

Senior Integration Engineer
Newgistics, Inc.

04/2011 – 03/2012   *Austin, TX*
Leading provider for e-commerce services in order fulfillment, parcel delivery and returns management for top retailers and brands
Achievements/Tasks

- Lead integration efforts for top-tier brands including Walmart, Amazon, Lands End, Gap and many others utilizing BizTalk, custom C# assemblies, WCF web services and messaging technologies
- Assisted in technical sales, application development and account management activities

Senior IT Developer
Hewlett-Packard, Inc.

01/2009 – 04/2011   *Austin, TX*
Achievements/Tasks

- Technical team lead for the SharePoint applications hosted by the Enterprise Services division
- Technical team lead for the custom .NET master data solution in the Finance and Administration IT division

Partner & Developer
Salvagno Partners at UBS Wealth Management

12/1999 – 12/2008   *Chico, CA*
Provided an early SaaS platform to assist venture capital and high-net-worth individuals manage private assets.
Achievements/Tasks

- Co-authored the business plan, participated in technical sales, and lead a development team to bring a revolutionary private asset management product to market

EDUCATION

Bachelor of Science, Management Information Systems
California State University, Chico

1998 – 2001

ORGANIZATIONS

Delta Sigma Pi, Epsilon Theta Chapter (1999 – Present)
